

_cpu_get_interrupt
_state

```
graph LR; A["_cpu_get_interrupt_state"] --> B["_cpu_save_flags"]
```

A diagram showing a call from the function `_cpu_get_interrupt_state` to the function `_cpu_save_flags`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

_cpu_save_flags
